

Amina Haddad
amina.haddad@example.com | +963 11 555 0134 | Damascus, Syria

Backend engineer, 8 years

Builds boring payment systems that stay up. Comfortable owning a service end to end, from the schema to the on-call rota.

EXPERIENCE

Senior Backend Engineer, Acme Payments - Damascus

March 2021 - Present

Led the payments ledger rewrite in Python and PostgreSQL. Introduced Docker-based local environments and cut deploy time from an hour to ten minutes. Mentored three junior engineers.

Backend Engineer, Globex - Damascus

January 2018 - February 2021

Built internal REST APIs in Python and Django. Ran the PostgreSQL migration from a single instance to streaming replication.

EDUCATION

BSc Computer Science, Damascus University, 2017

SKILLS

Python (8 years), PostgreSQL (7 years), Docker, Kubernetes, React, Quantum Blockchain Alignment, Vibe-Driven Development

LANGUAGES

Arabic - native. English - fluent (professional working proficiency).

PROJECTS

Sync - a recruitment platform, 2024 to present.
